BOTTOM LINE FixFlash is a good choice if you want a long-term unlimited service contract for a reasonable monthly rate. The staff is knowledgeable and aggressive in attacking your tech trouble. But the service isn't 24/7, and there's no chat version—all support requires a phone call. PROS Phone technicians examine problems thoroughly. On-site service option. CONS Not 24/7. Some hidden costs. Only one PC per monthly account. Phone call always required.
